

The Viking Age

The Viking Age is the period during the Middle Ages when Scandinavian Norsemen explored, raided, and traded from their Scandinavian homelands across wide areas of northern, central, and eastern Europe, during the late 8th to late 11th centuries. This period of Scandinavian military, mercantile and demographic expansion is an important part of European history.

The Viking Age is the period during the Middle Ages when Scandinavian Norsemen explored, raided, and traded from their Scandinavian homelands across wide areas of northern, central, and eastern Europe, during the late 8th to late 11th centuries. This period of Scandinavian military, mercantile and demographic expansion is an important part of European history. The Viking Age began dramatically on June 8, 793, with the raid on the monastery at Lindisfarne in Northumbria. This attack on a Christian holy site shocked the medieval world and marked the beginning of two centuries of Viking activity across Europe. Vikings were not just raiders but also traders, explorers, and settlers. They established trade routes from Scandinavia to the Byzantine Empire and the Abbasid Caliphate. Norse merchants dealt in furs, timber, iron, and slaves, trading for silver, silk, spices, and wine. The Vikings were master shipbuilders and navigators. Their longships were technological marvels—fast, flexible, and capable of sailing in both deep ocean waters and shallow rivers. These vessels enabled Vikings to raid inland sites and cross the
